

# TIP OF THE WEEK

MODEL ..... HM300-5 & HM400-5  
 FEATURE ..... Heated Mirrors  
 STD / OPT ..... Standard  
 SUGGESTED SETTING ..... Application Dependent

## Heated rearview mirrors are standard on the HM300-5 and HM400-5.

The heated mirrors prevent snow or frost from impairing the operator's ability to use the rearview mirrors. The heated function also evaporates water droplets that may accumulate while operating in rainy conditions.

A rocker switch on the left-hand side of the dash turns the heated mirror function on or off.

For additional information, please consult the Product Bulletin, Operator's Manual or Shop Manual. Photos may include optional equipment.
