

TIP OF THE WEEK

MODEL	All KOMTRAX machines
FEATURE	KOMTRAX Mobile App
STD / OPT	Standard

Get answers from your fleet !

- Equipment Location
- Utilization – Including hours worked, idle time and fuel consumption
- Health – Cautions
- Movements – Leaving the breadcrumbs
- Contacts – Direct Distributor Connections

Komatsu’s Free KOMTRAX Mobile App makes managing fleet a lot easier !

Conveniently view your fleet or specific asset information from you smart phone or tablet. This indispensable tool gives you the flexibility to proactively mange your fleet anytime...anywhere !

- Identify hours worked, idle time and fuel consumption at any time over a day, week, month or a particular time period within a month
- Identify any health related cautions that have been triggered including the description and a time stamp
- Locate your machines anywhere in a regular map or satellite view, and get driving directions. Identify any machines that have moved significantly from their last known location, or stopped communicating
- Effortlessly identify machines that have not worked in your fleet
- Have a direct connection with your Distributor at any time. Contacts offered in the KOMTRAX Mobile App help you call, email or text your PSSR, Salesmen, Serviceman, parts or the KOMTRAX Coordinator with any questions.

Download the App today by searching KOMTRAX Mobile on either your Android or Apple stores and register for access !

For additional information, please consult the Product Bulletin, Operator’s Manual or Shop Manual. Photos may include optional equipment.
