

TIP OF THE WEEK

MODEL..... PC30MR-5 – PC1250LC-8
 FEATURE..... Track Frame Undercovers
 STD/OPT..... Standard
 SUGGESTED SETTING.... N/A

The Komatsu excavators listed below have standard track frame undercovers to protect the hydraulic swivel and hoses from job site debris. Unprotected hydraulic swivel components can be vulnerable to damage from a variety of applications, which can lead to costly repairs to the hydraulic system and final drives. Track frame undercovers are bolted on for easy removal and service access to the swivel joint and hoses.

Model	Cover Thickness	Set
PC30-55MR-5	3.2 mm	1 piece
PC78MR-10	4.5mm	1 piece
PC88MR-10 (Optional)	4.5mm	1 piece
PC138USLC – 490LC-11	9 mm	1 piece
PC650LC-11	6mm	3-piece
PC800LC-8	6mm	3-piece
PC1250LC-8	9mm	6-piece

Many competitive excavators only offer track frame undercovers as optional equipment. When selling, be sure to promote the added value of this standard feature of Komatsu excavators.

For additional information, please consult the Product Bulletin, operator's Manual or Shop Manual.
